

MINUTES TO DUMONT MEETING JUNE 28 1976

Those attending were: gary, ken, doug, steve, murray, mike c, jane, charlotte, as you can see, attendance was down.

AGENDA:

1. work pace
2. food
3. transportation for country livers
4. other voices and dumonts relationship with same
5. printer & publisher - do we still want it
6. mike c going part time in the fall
7. scheduling for n-c night work on computer and performers
8. Ruth Dworin and printing course
9. air conditionner
10. union

1. decided to discuss this at the end of the meeting and at the end of the meeting we decided to discuss it when everyone came to a meeting which will probably not be until september at least.
 2. we will all bring our own lunches (or go out for those who can afford it) and everyone including philip and richard will put in a dollar a week for milk, coffee, tea, etc.
 3. we will stick by our earlier decision made about a year or so ago that people living in the country will use the red or white van and will pay for it.
 4. money from the bottles at the party will be used to pay people who spent more for food than we had allotted.
(the above point snuck (?) in and has me all messed up)
 5. OV steve tested and checked us on how and what we felt about ov and we gave him some fairly useless feedback on form, content etc.
 6. Inland Printer & Publisher has now been removed from the bathroom material
 7. mike c will be allowed to go parttime in the fall and jane will be allowed to go parttime for the summer and the slack witch still hasn't made up her mind for the fall.
 8. steve has drawn up a schedule for the ncs this summer and its already fucked up but what the hell anyway, ken and steve will help the people get used to the machinery and the people can stay at louisa street or roy street or zonk street also ken and murray will be working on the machine next week and the machine will be DOWN
 9. yes if it will help ruth to get into the adult retraining printing course we will say that she can work here at the end but she is to remember that this doean't mean that she really has the job.
 10. air conditionner - not for people but for machinery. we still must get a transformer which will cost a lot and we still don't know where we will put it or them or whatever
 11. the labour relations board wants to know where our new contract is and we will update last years and send it to them ken will do that and he will also tell them how many women work here which shouldn't be too hard for a mathematician to do.
- that's all jane did these minutes. and we didn't discuss work pace
