CUP needs exec level decision

they figure they can get enough money somewhere

- MC worriesove rthe money angle

- they may want us or them to do it N/C in which case we need to effectively participate in the input

- Rosco says their financial stability depends on the ad program

- there is precedent for CUP and Youthstream to accept a non-Student union sponsored paper

- Rosco says we should print it no matter what name it is but we should contact Brain Iler and that we should print it wven if we don't get paid

- Moe thinks we are libel if ~~ex~~ we print it as the Chevron

- if we print the chevron, what s happens to our relationships with federation

- ask Brian: (1) copyright liability

(2) ads - who do the advertisers contrade with and if they contract ad ad for the chevron what happens if it appears in the free chevron

(3) who owns the paste ups and copy

Response from Brian Iler:

(1) all materials paste up and copy belongs to the federation and any phone calls from them are legal instructions

(2) can give copy back to Chevron and paste ups are ours if they don't pay for them, theirs if they do

(3) advertisers would have to say ok to have ads in the free chevron
