

MINUTES OF THE JULY 28 GENERAL MEETING ON CHEAP PAPER

Present: Jane, Murray, Brenda, Michael "C", Rosco, Douglas?"
Hope no one feels left out.

1. OHIP- Should we that remain pay the OHIP of people- Gary, Ken, Steve , and Carol-not currently working at the shop? We decided to continue paying Carol's OHIP, and to wait and ~~xt~~ discuss the matter with the other three.when they return.
2. Jesse and the Marxist Algebra- Is promotional mailing advertising or distribution? (This activity to be carried out in the next few days) While distribution is our responsibility under the terms of our contract with Jesse, total advertising costs are to be shared 50/50. It was agreed that mail outs should be considered advertising, thus we will charge Jesse 50% of our labor costs as well as 50% of material costs. We will try to work this job into our regular shifts.
3. Kama Sutra (?)- Rosco was enthusiastically volunteered to write a Nepalese student a Statement to the Effect that we will hire this potential immigrant should he reach these hallowed shores; it will make good public relations in Katmandu.
4. Lost Moey, rather Money. ~~xt~~ \$35 from cash sales, left in that place where we keep the money, is unaccounted for. It seems that perhaps there shold ~~xxxx~~ have been a little money left in the food money cup. Swindlers in our midst? A thief in the night? Investigators planned to seek Doug Epps for questioning in the matter, but declined to "put the finger" on Epps. The chairperson of the food committee, Doug Roberts, confessed that food money accounts were in a shocking state of disorder, and pledged to bend every effort to correct this deficiency, evidently fearing for his post.

5. ME (a pronoun referring to Murray)- Murray, who is not scheduled to work Wednesday of this week, asked ~~p~~ whether it would ~~inconvenience~~ inconvenience anyone if he also took Thursday and perhaps Friday off to finish his moving. We agreed we could probably make do without him.

6 . Bonus-We decided to ~~not~~ diminish our overlarge profit by granting a bonus of \$20 a month for each month worked by any worker at the shop between June 1, '74 and May31, '75. (\$20 net)

& lastly

7. An Emotion Charged Report from Our Accountants- Our accounts ~~are~~ were evidently rather scrambled, said our weary accountants, visibly shaken after a day juggling books. Carelessness, it was made plain, is responsible. Numerous wild proposals were tossed about: hiring an auditor; putting a person on full time on books; reviewing books monthly; impressing people currently involved in book keeping with the necessity of accuracy. What action will be taken? Only time will tell.
